

European Association of Archaeologists 20th Annual Meeting

Istanbul, 11-14 September, 2014

Session T02S002 – Barriers and opportunities: Open Access and Open Data in Archaeology

(Frank Siegmund, Julian D. Richards, Guntram Geser)

The European Science Foundation and other leading European research-funders have declared their support for the “Berlin Declaration on Open Access to Knowledge in the Sciences and Humanities”: a far-reaching restructuring of scientific publishing in favour of open access will take place before the end of the current decade. In parallel, the infrastructure necessary for open data is being created and the political pressure to use it will increase. Many areas of the humanities in Europe, including archaeology, still find this a difficult step to take. At present, the majority of highly renowned journals continue to be published in the traditional way, and research data are still generally unpublished. At the same time, the early adopters of open access and open data are still battling with the problems of how to implement it in practice. This session will attempt to provide an up-to-date overview of open access and open data. We welcome papers from academics, projects and publishers interested in this issue. Archaeologists need to think one step ahead at this early stage: will the availability of open data change the nature of archaeological research and publication, and will it also impact the ways in which archaeologists engage with wider communities?

13 September 2014

11:00-11:20 – Siegmund, Frank: Introduction to the Session: Open Access and Open Data as Steps towards an Open Archaeology

11:20-11:40 – Young, Rachel: Publishing Open Access isn't the End of the Story

11:40-12:00 – Rocks-Macqueen, Doug: Old and New Adventures in Open Access

12:00-12:20 – Eberhardt, Gisela: Are We There Yet? The Open Access Journal "eTopoi. Journal for Ancient Studies"

12:20-12:40 – Büttner, Alexandra: "Archäologische Informationen" and Open Journal Systems. Chances and Possibilities of an Open Access Journal

12:40-14:00 – Lunch Break

14:00-14:20 – Boi, Valeria: Open Access in Italy: An Overview and a Proposal

14:20-14:40 – Stacca, Milena: The Geographic Archaeological Information System of Rome between Intellectual Property Rights and Privacy Protection Law

14:40-15:00 – Bonacchi, Chiara: Looking into the Consumption of Archaeological Open Data: The Case of the Portable Antiquities Scheme

15:00-15:20 – Colley, Sarah: We're All Prosumers Now? Sociality and Open Access Archaeology

15:20-15:40 – Sakellariadi, Anastasia: Archaeological Training in an Open Access World: Lessons from the REWARD Project (Researchers using Existing Workflows to Archive Research Data)

15:40-16:00 – Lynam, Frank: linkedARC.net: Accessing the Benefits of Open Data Practice within Archaeology

16:00-16:20 – Coffee Break

16:20-16:40 – Geser, Guntram: Open Data Publication - Requirements, Good practices, and Benefits

16:40-17:00 – Richards, Julian D.: Opportunities and Challenges with Open Access and Open Data in the UK

17:00-17:20 – Gattiglia, Gabriele: Think Big about Data: Archaeology and the Big Data Challenge

17:20-17:40 – Schäfer, Felix: Open Access of Research Data - The Present and Future Situation in Germany

17:40-18:00 – May, Keith: Barriers and Opportunities for Linked Open Data Use in Archaeology and Cultural Heritage

18:00-18:20 – Discussion

Jahrestagung 2014 der Deutschen Gesellschaft für Ur- und Frühgeschichte e.V. (DGUF)

Berlin, 6. Oktober 2014, im Rahmen des 8. Deutschen Archäologiekongresses

Open Access und Open Data verändern die Archäologie: Erfahrungen, Reflexionen, Strategien

(Frank Siegmund, Diane Scherzler)

9:00 Uhr – Priv.-Doz. Dr. Frank Siegmund (Universität Düsseldorf / Deutsche Gesellschaft für Ur- und Frühgeschichte): Archäologie im Open Access publizieren: über die Notwendigkeit des Wandels, seine Wirkungen und Nebenwirkungen.

9:25 Uhr – Dr. Lilian Landes (Bayerische Staatsbibliothek München): Wissenschaftskultur im Wandel: Open Access, (Fach-) Öffentlichkeit und Digitalisierungskepsis.

9:50 Uhr – Prof. Dr. Hubertus Kohle (Ludwig-Maximilians-Universität München): Publish first - filter later. Über den Prozess der Qualitätssicherung im Open Access.

10:15 Uhr – Dr. Niels Taubert (Berlin-Brandenburgische Akademie der Wissenschaften): Probleme und Herausforderungen des Publikationssystems in den Geistes- und Sozialwissenschaften.

10:40 Uhr – Kaffeepause

11:00 Uhr – Dr. Johannes Fournier (Deutsche Forschungsgemeinschaft): Open Access und Open Data – Positionen und Perspektiven der Deutschen Forschungsgemeinschaft.

11:25 Uhr – Dr. Maria Effinger (Universitätsbibliothek Heidelberg): Open Access – Open Archaeology: Wissenschaft und Bibliothek als Dream-Team?

11:50 Uhr – Prof. Dr. Nicholas P. Canny (European Research Council): An Open Access Repository for Archaeology?

12:15 Uhr – Mittagspause

13:45 Uhr – Dr. Nadine Riedl & Dr. Gisela Eberhardt (Exzellenzcluster 264 Topoi): To-do-Liste für den Übergang zu Open Access in den Altertumswissenschaften.

14:10 Uhr – László Matthias Simon-Nanko M. A. (Universität Tübingen): Open Access in der ungarischen Archäologie – Chance oder Notwendigkeit?

14:35 Uhr – Dr. Sergiu Musteață (Institute of Archaeology, Romanian Academy): Open access and open data in archaeology: a case of Romania.

15:00 Uhr – Kaffeepause

15:30 Uhr – Dr. Felix Schäfer & Maurice Heinrich (IANUS - Forschungsdatenzentrum Archäologie & Altertumswissenschaften, Deutsches Archäologisches Institut): Forschungsrohdaten für die Altertumswissenschaften - eine kurze Bilanz zur aktuellen Situation.

15:55 Uhr – Prof. Dr. Raimund Karl & Katharina Möller M.A. (Bangor University, UK): Open Data, Archäologie und Bürgerbeteiligung in England und Wales.

16:20 Uhr – Abschlussdiskussion
