## Notes for contributors

### Themes and deadlines

**TA114** Using geophysical investigation for heritage management: For more than 30 years, geophysical survey has played a major role in developer-funded archaeology. With urgent priorities such those in the recent White Paper *Planning for the Future* (Aug 2020) and recommendations in the *Tailored Review of Historic England* (Nov 2020) this TA will investigate how geophysical survey is used effectively in archaeological projects and showcase the added value it can provide  
**Deadline: 1 August 2021.**
