

THE ClfA REGISTER OF ORGANISATIONS 2019/20

See www.archaeologists.net for any changes or additions made since the time of publication.

The Institute launched in 1996 a valuable source of information for users of archaeological and historic environment services – the ClfA Register of Organisations.

Organisations on the Register are identifiable by the designations 'ClfA-registered organisation' or 'registered as an organisation with the Chartered Institute for Archaeologists' and by using the Registered Organisation logo in promotional literature.

A ClfA-registered organisation is led by experienced MCIfA-grade member(s) of the Institute (our highest grade) who have a track record of responsibility for substantial projects. They have personally undertaken to be bound by the *Code of conduct*, and other ClfA regulations and Standards and guidance, and are responsible for ensuring that all work undertaken under their supervision will comply with their requirements.

Organisations are monitored for the quality of their work and must apply for registration every three years. Organisations complete a detailed questionnaire and are subject to inspection by a panel of peers. Registration is approved by the Registrations Committee (organisations). The committee may also decide to require further inspections and/or information within the period of registration where necessary.

Customers of a ClfA-registered organisation can commission work with the confidence that it will be undertaken in accordance with ClfA's requirements. There is a complaints procedure, which may, in serious cases, lead to the suspension or expulsion of an organisation from the Register.

For further information about the scheme or an application form, please contact the ClfA office or download the details and form from the ClfA website, www.archaeologists.net/join/organisation.
