
CONFERENCE DIARY

GlobalPottery 1st International Congress on Historical Archaeology and Archaeometry for Societies in Contact

Barcelona, Spain 7th-9th May, 2012

Up to now, there has been an important gap in the scholar community where specialists could discuss and define new trends on the field of ceramic studies in Historical Archaeology for societies in contact. This gap is even more evident considering the limited number of projects embracing archaeological and archaeometrical methodologies that could serve for the development of interdisciplinary based knowledge.

The aim of GlobalPottery is to fill this gap, providing scholars with a specialized international forum that deals with Historical Archaeology ceramic studies, primarily including the so-called topics of Post-Medieval Archaeology and Later Historical Archaeology or Industrial Archaeology.

More information about the conference can be found at: <http://globalpottery.ub.edu/>.
