

Acknowledgements

We owe our deepest gratitude to

the public authorities, namely to the:

- SWISS CONFEDERATION
- CANTON OF ZURICH
- CITY OF ZURICH.

Together with the contributions of the Association for the Promotion of SIK-ISEA, it is funding from the public purse that constitutes the financial basis for the Institute.

We would like to thank CANTON VAUD and the UNIVERSITY OF LAUSANNE for their support of our Antenne romande in Lausanne-Dorigny.

Thanks are also due to the following cantons, cities and municipalities for their additional financial contributions towards our operating expenses:

- CANTON GRAUBÜNDEN (GRISONS)
- CANTON SCHWYZ
- CANTON SOLOTHURN
- CANTON TICINO
- CANTON THURGAU
- CANTON ZUG
- CITY OF SCHAFFHAUSEN
- CITY OF SOLOTHURN
- CITY OF ST. GALLEN
- CITY OF WINTERTHUR
- MUNICIPALITY OF KÜSNACHT ZH

Very cordial thanks go to Mrs. Annette Bühler, our benefactor of many years, who has once again given us a major contribution towards our operating expenses and a generous donation for the further expansion of the Eduard Hüttinger Library, the main focus of the collection. We are especially grateful to Mrs. Bühler for her generous support of the Research Promotion Programme.

In 2008, the CONRAD W. SCHNYDER FOUNDATION once again supported the scientific and academic expansion of the Institute with a large contribution. Not only would we like to thank the Foundation in general, but we would also like to especially thank our patroness of many years, Mrs. ERIKA SCHNYDER, for all her generous and lasting support. Regrettably, Mrs. Schnyder died in the year under review (see *In Memoriam*, page 12).

We would like to thank SWISS RE for their generous support of our art technology research.

Sincere thanks go to Dr. URSULA KREIBICH and the AXA ART INSURANCE CORPORATION for their donation to support our scientific and academic activities.

We would also like to thank the FAMILIEN VONTOBEL FOUNDATION for their financial contribution towards purchasing professional digital photographic equipment.

Our sincere thanks are also extended to the PAUL SCHERRER INSTITUTE for the use of 3D computer tomography equipment for examination purposes.

Our deepest appreciation is due to MEDARD MEIER, Partner at GISLER, MEIER, REPELE. & Z'GRAGGEN in Zurich, as well as a member of the Board of Directors of our supporting association, the Association for the Promotion of SIK-ISEA, for his pro bono consultancy in communication matters.

Our sincerest appreciation also goes to Dr. HANS-RUDOLF STAIGER and law firm STAIGER, SCHWALD & PARTNER AG, Zurich, for another year of free legal advice.

The Association for the Promotion of SIK-ISEA has once again furthered our activities with its major support.

In this respect, we would like to explicitly thank the following private persons, firms and institutions:
